

What is SeatSmart?

SeatSmart is a classroom seating plan tool built for UK schools to create behaviour-supporting seating plans quickly and reduce teacher workload.

Who is SeatSmart for?

Primary schools, secondary schools, UTCs, special schools, alternative provision, and multi-academy trusts of all sizes.

How long does setup take?

Most schools can start using SeatSmart in under 30 minutes.

Is training required?

No. The system is designed to be intuitive, with guidance videos available if needed.

Can we upload class lists manually?

Yes. Smaller settings can upload class lists without needing system sync.

Does SeatSmart sync with school systems?

SeatSmart can sync with Microsoft Teams or Google Classroom.

Does SeatSmart require MFA?

SeatSmart uses your school's Microsoft or Google login. If MFA is enabled by your school, it will be used automatically when staff sign in. No extra passwords or accounts are required.

Can we create multiple seating plans?

Yes. Teachers can create different layouts for different lessons or projects.

Can seating plans be shared or printed?

Yes. Plans can be shared digitally, printed, or displayed in whiteboard-safe mode for students.

Can we apply behaviour or SEN rules?

Yes. Teachers can set rules to support behaviour management and student needs.

Is SeatSmart GDPR compliant?

SeatSmart is designed with UK data protection requirements in mind. Full privacy documentation is available on request.

How much does SeatSmart cost?

Pricing starts at £250 per year depending on student numbers.

What support is available?

Email support is included with fast response times.
