

## General Information

**Castilla** or Castillo variety is the ultimate "all-rounder" variety. Its robustness makes it ideal for an intense **Espresso** with persistent crema, or for a **Cappuccino** or **Latte**, where its natural sweetness pairs harmoniously with milk. It also performs excellently in a **Moka Pot** or **Drip coffee** for your daily morning cup.

**Fun Fact:** Castillo beans are known for their great density and size, which allows them to handle medium and dark roasts exceptionally well without losing their sweetness.

|                   |                                         |
|-------------------|-----------------------------------------|
| Name              | Castilla or Castillo                    |
