SUMMARY OF ORDINANCE NO. 500

EXTENSION OF WATER AND WASTEWATER PERMIT MORATORIUM

Ordinance No. 500 amends Regular Ordinance No. 486 to extend the existing moratorium on issuance of water and wastewater hook-up permits through December 31, 2028, subject to earlier repeal by the City Council or earlier certification by the City's Engineer and the Idaho Department of Environmental Quality that the identified wastewater and drinking water system improvements are complete.

The remaining provisions of Ordinance No. 486 continue in effect, including the applicant priority process and the allowance for additional permits certified by the City's Engineer and the Idaho Department of Environmental Quality as safe to issue. The amending ordinance establishes no new penalties and takes effect upon passage, approval, and publication as required by law.
