

## RABBIT RESISTANT PLANTS

No plant is said to be totally rabbit proof. Young rabbits investigate by nibbling most plants. However, they soon learn which plants are tasty and which ones to leave alone.

In general rabbits dislike very aromatic plants, plants that ooze caustic or milky sap, prickly plants, plants with spines, or plants with tough leathery leaves.

### Perennials, Annuals, Herbs and Grasses

• Ajuga (Bugleweed)	• Alcea (Hollyhock)	• Alchemilla (Lady's Mantle)
• Amsonia	• Aquilegia (Columbine)	• Artemisia (Silvermound)
• Aruncus (Goat's Beard)	• Aster	• Astilbe
• Baptisia (False Indigo)	• Bergenia (Elephant Ears)	• Brunnera
• Clematis	• Convallaria (Lily of the Valley)	• Crocosmia
• Cortaderia (Pampas Grass)	• Dahlia	• Dianthus (Sweet William)
• Dicentra (Bleeding Heart)	• Digitalis (Foxglove)	• Epimedium (Barren Wort)
• Eryngium (Sea Holly)	• Eupatorium (Joe Pye Weed)	• Euphorbia (Spurge)
• Geranium (Hardy and Annual)	• Helleborus (Lenten Rose)	• Hemerocallis (Daylily)
• Heuchera (Coral Bells)	• Hosta	• Impatiens
• Iris	• Kniphofia (Red Hot Poker)	• Lamium (Dead Nettle)
• Liriope (Lily Turf)	• Lysimachia (Loosestrife)	• Narcissus (Daffodils)
• Mentha (Mint)	• Miscanthus (Maiden Grass)	• Muscari (Grape Hyacinth)
• Nicotiana (Tobacco Plant)	• Nepeta (Catmint)	• Osteospermum (African Daisy)
• Paenoia (Peonies)	• Papaver (Poppy)	• Primula (Primrose)
• Polemonium (Jacob's Ladder)	• Rosemary	• Rudbeckia (Black Eyed Susan)
• Salvia (Sage)	• Sedum (Stonecrop)	• Stachys (Lamb's Ear)
• Stokesia (Stokes Aster)	• Tiarella (Foam Flower)	• Tradescantia (Spiderwort)
• Verbena (Hardy and Annual)	• Veronica	

### Trees and Shrubs

• Aucuba	• Berberis (Barberry)	• Buddleia (Butterfly Bush)
• Buxus (Boxwood)	• Cornus (Dogwood)	• Cryptomeria
• Deutzia	• Hydrangea	• Hypericum (St. John's Wort)
• Kalmia (Mountain Laurel)	• Lonicera (Honeysuckle)	• Cherry Laurel
• Rhododendron	• Roses	• Skimmia
• Syringa (Lilac)	• Viburnum	• Weigela
• Yucca
