THRESHOLDERS COURSES

THRESHOLDERS AT THE PRONAOS

The Thresholders must begin to cross the liminal space which borders between the seen and known, and the unseen and unknown. This includes the study of the true nature of Spirits, Entities and Elementals, and the various aspects of both the Unseen and Half-Seen Realms, and their own psychic powers of perception.

We recommend that Thresholders complete at least two of the Courses.

THE REFLECTING MEDIUM

The Thresholder must move on from the denser energies of the Elements to that of the mental and imaginal fields: the great region of visual and metamorphic light which Eliphas Levi termed the *Reflecting Medium*, and the *Astral Light* - the Light of thought, dream, vision and nightmare.
