GEOMANCERS COURSES

GEOMANCERS AT THE PRONAOS

The Geomancers go forth with confidence into the landscape and commence the study of the Earthlight - the mystery of the land - and its telluric and chthonic forces. This includes a deep dive into the tradition of the *Genius Loci*, the study of Leylines and Dragon Paths, and the connection between the atmosphere of a place and local instances of mysterious sightings, paranormality and high strangeness.

We recommend that Geomancers complete at least two of the Courses.
