DISTRICT MEETING: 2ND TUESDAY EVERY MONTH

6:30 PM @ St Mark's United Methodist Church

Step SIX: "Were entirely ready to have God remove all these defects of character".

.What is Step 6 of AA?

.The idea behind this phase of 12-step recovery—Steps 4 through 7—is to address some of the personal issues, shortcomings, and character defects that may have been a factor in your decision to begin drinking in the first place.

If you simply stop drinking and do not address some of these other issues, they could lead you into situations that may cause you to <u>relapse</u>. For example, if the way you express anger or the way you handle rejection is a problem for others around you, you could end up ruining a relationship, and that could cause you to pick up a drink again.

Furthermore, if you "only" quit drinking and you don't address your other issues, you could end up what some call a "dry drunk," meaning you may become bitter and resentful. In which case, you may be sober but very unhappy.

The other aspect is you might return to drinking as these issues can lead to negative thinking, difficulty with relationships and financial issues. These eventually lead to resentments and fears unless effectively dealt with can leave the person in recovery vulnerable to relapse.

A.A. PREAMBLE

Alcoholics Anonymous is a fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problem and help others to recover from alcoholism.

The only requirement for membership is a desire to stop drinking. There are no dues or fees for A.A. membership; we are self-supporting through our own contributions. A.A. is not allied with any sect, denomination, politics, organization or institution; does not wish to engage in any controversy, neither endorses nor opposes any causes. Our primary purpose is to stay sober and help other alcoholics to achieve sobriety.

How to Practice Step 6 in Daily Life

Step 6 in the 12-step recovery program says "We became willing to ask God to help us remove our defects of character."

This is a particularly challenging step to take. To understand why, let's first review how far we've come in steps 1 through 5.

The first 3 steps of the 12-step recovery program are about accepting powerlessness in the face of addiction, and about finding the willingness to get sober.

Steps 4 and 5 are about looking at the consequences of your addiction.

Such a hard look in the mirror is scary and sometimes embarrassing -- identifying character traits and patterns of behaviors that lead you to where you are today.

Which brings us now to step 6. After all the difficult work you've done, why is step 6 especially difficult?

Steps 1 through 5 are all about self-reflection -- you've admitted you have an alcohol problem.

Step 6 is about finding the willingness to take some action, to turn over powerlessness, as well as any negative aspects of our character to a higher power, as the individual has defined it.

And you thought things were tough before? Just wait! But you can do it.

First, keep in mind step 6 doesn't ask us to take some action right away, it only asks us to find the *willingness to take some action* – difficult enough to do, but anything that's difficult to do can be made easier when broken down into smaller chunks, like the following:

• Beware of perfectionism You don't have to do everything perfectly to recover from drug and alcohol abuse.

In addition, you don't have to be willing to turn over everything all at once.

Instead, identify a few of the most serious issues you're willing to address, and tackle the rest at a later time.

- Check Yourself
 Another way of saying that step 6 doesn't ask us to take some action right away, it
 only asks us to find the willingness to take some action is to say step 6 is about atti tude rather than behavior.
- Every morning, take a look in the mirror. Ask yourself: am I willing to turn my negative qualities over to a higher power, however I have defined it.
