

R&D TAX CREDIT

Engineering & Design

Flanagan Capital, LLC is dedicated to your company's success by assisting in the reduction of your tax liability. The Research and Development Tax Credit was originally introduced in the Economic Recovery Tax Act of 1981 and is a government-sponsored tax incentive that rewards companies for conducting R&D within the United States. Flanagan Capital will facilitate the process to help make your business gain competitive advantage, expand faster and increase overall profit by taking advantage of the R&D Tax Credit.

What activities qualify for R&D Tax Credits?

R&D Activities which qualify a company for Tax Credits, can be overlooked by a company due to lack of knowledge. Manufacturers of all kinds often falsely believe they do not qualify because they are manufacturing outputs for their customers who provide prints and specifications. Examples may include the following:

- Innovative ways to enhance the product quality and/or manufacturing processes of your company
- Creating custom designed machinery
- Transforming ideas into innovative products
- Design and implement electromechanical instruments
- Create new materials/products
- Drafting, Test, Engineering & Designing
- Innovation and Creation of new products

Points of Focus:

- Automation
- Electromechanical
- Development
- Design
- Custom Equipment
- Assemblies
- Testing
- 3D Printing
- Validation
