Our advocacy is led for and by communities being advocated for using communal approaches to provide hope and build innovative ways to educate, advocate for, and strive for a world that normalizes and supports mental health struggles and where all individuals can be met with quality mental health services for their unique recovery journeys.

**SO THAT CHOSEN FAMILY CAN HEAL TOGETHER**
We focus on catching individuals that fall through the cracks of our mental health system. We help those (18+) navigating mental illness and/or substance misuse challenges, neurodivergence, disability, grief, trauma, or other obstacles to mental wellness. This is done while focusing on Black, Latinx, immigrant, LGBTQ+, disabled folx, and other communities that show statistically higher rates of mental health challenges and/or lack of access to affordable and accessible mental wellness options that practice cultural humility. We help these populations build peer recovery communities.

It costs us $1,600-$9,360 to support a community gathering for a specific community for one year.

Cost of a group depends on factors including the frequency the group meets, material needs for a group, and amount of additional socials or advocacy initiatives the group has.

- **BLACK COMMUNITY**
- **DAILY DIGITAL GATHERINGS**

**WHAT WILL THIS SUPPORT?**

Your support helps individuals have a space to build a support system and a sense of chosen family with their community. This lets them know they are not alone and gives a healing space to share candidly.

Sponsoring a community covers all costs associated with directly supporting a community for one year including the cost of training and supervising community facilitators, providing facilitator stipends, group materials, marketing and cost of any activities. You are supporting the no-cost opportunity for a community to have a healing space of support with individuals sharing lived experience.
