# Wedding Estimates | What's the Difference between The Essential Wedding & The Creative Wedding Estimates?

You may be wondering, what is the difference between The Essential Wedding and The Creative Wedding at The Greenhouse? Let us explain! Generally speaking couples usually either want a wedding package, or they want to customize every detail. We have options for both:

**The Essential Wedding** | For couples who prefer a package style wedding. These couples want a spectacular wedding, but want to be able to determine all of the costs up-front, host their wedding on their budget, and want to customize their photographer, florals, decor, and other details. Opt for The Essential and discover a streamlined process featuring our carefully curated list of essential vendors from our Required Vendors list. We've handpicked the most popular vendors to ensure your special day at The Greenhouse is nothing short of spectacular. This option provides a convenient package estimate, allowing you to plan with ease, while you still pick your perfect details like photographer, florals, decor, HMUA, and others.

**The Creative Wedding** | For couples who want various options for each decision of their wedding, The Creative may be the approach to take. While The Creative still requires that couples applicable vendors from our required Vendors list, it does offer the option of several different catering and DJ options. While The Creative offers more flexibility, as all vendor requests customized, it also requires you to reach out to each vendor individually to obtain accurate pricing based on your personalized vision.

Our goal is to empower you with the information you need to make informed decisions about your wedding. Whether you choose the convenience of The Essential or The Creative, we're here to support you every step of the way as you embark on this exciting chapter of your life. Let the planning begin!
