

PET BED — These pet beds are donated to the SPCA

Fabric Requirements

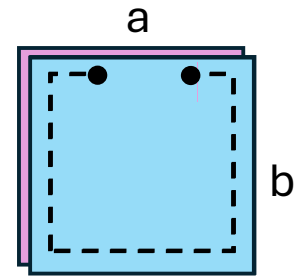

- Two (2) 18" squares of washable, heavy weight fabric
or
- Two (2) Fat quarters of quilt quality fabric
- Assorted fabric and batting scraps

1. To create the pet bed, place the two squares of fabric on top of each other right sides together to make a fabric sandwich.

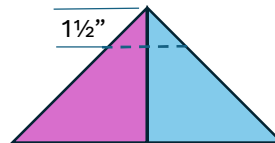

Step 1

2. Using a $\frac{1}{4}$ " seam, stitch around the perimeter of the fabric sandwich leaving an opening on one side.

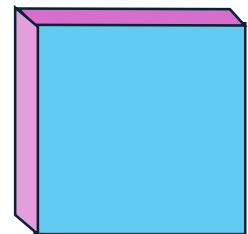

Step 2

3. Select sides "a" and "b", and align the seams. Measure $1\frac{1}{2}$ " from the point and stitch across the point as shown. Repeat for each corner. This will create a 3" thick cushion.

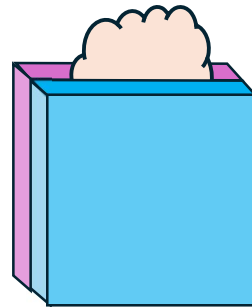

Step 3

4. Turn the stitched fabric sandwich right side out and press.

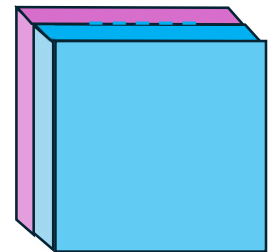

Step 4

5. Cut fabric and/or batting scraps into small pieces. Try to keep the scraps smaller than four inches.

Step 6

6. Stuff the stitched pet bed with scraps until it is approximately two inches thick.

Step 7

7. Once stuffing is complete, stitch the open edge. Your pet bed is complete!

Thank you for making a pet bed for CLQ
Philanthropy!

Woof!
