

WALKER BAGS

Fabric Requirements:

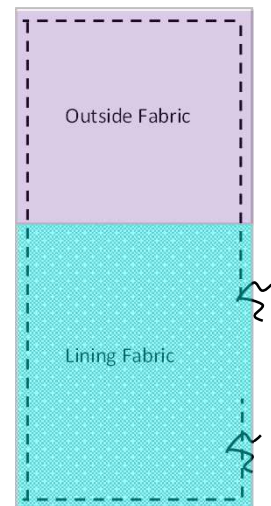

- For the Outside of the bag – (2) 17" X 13" pieces of fabric.
 - For the Lining – (2) 17" X 14½" pieces of fabric.
 - For Ties – (2) 20" pieces of grosgrain ribbon.
-

1. Create two fabric pairs. Place an Outside fabric & Lining fabrics right side together (RST) along the 17" side and stitch. Do this for each pair.

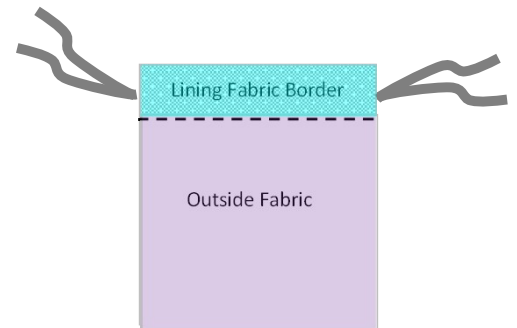

2. With right sides together, match linings and outside pieces.

3. Sew around the outside, leaving an opening for turning in the lining. Now you have a large rectangle.

4. Turn right side out through the opening. Push out the corners. Sew up the opening.

5. Now push the lining into the bag, matching corners. There will be a border of the lining fabric along the top.

6. Press and then top stitch along the border.

7. Fold 20" ribbon in half and fasten to inside of bag at the seams for the ties.
