

Challenges

Emergency Response

- No instant access to medical ID, location, or conditions delays time to care.

Work Documents & Compliance

- Work documents and certifications are difficult to track, risking fines and inefficiencies.

Equipment Inspections

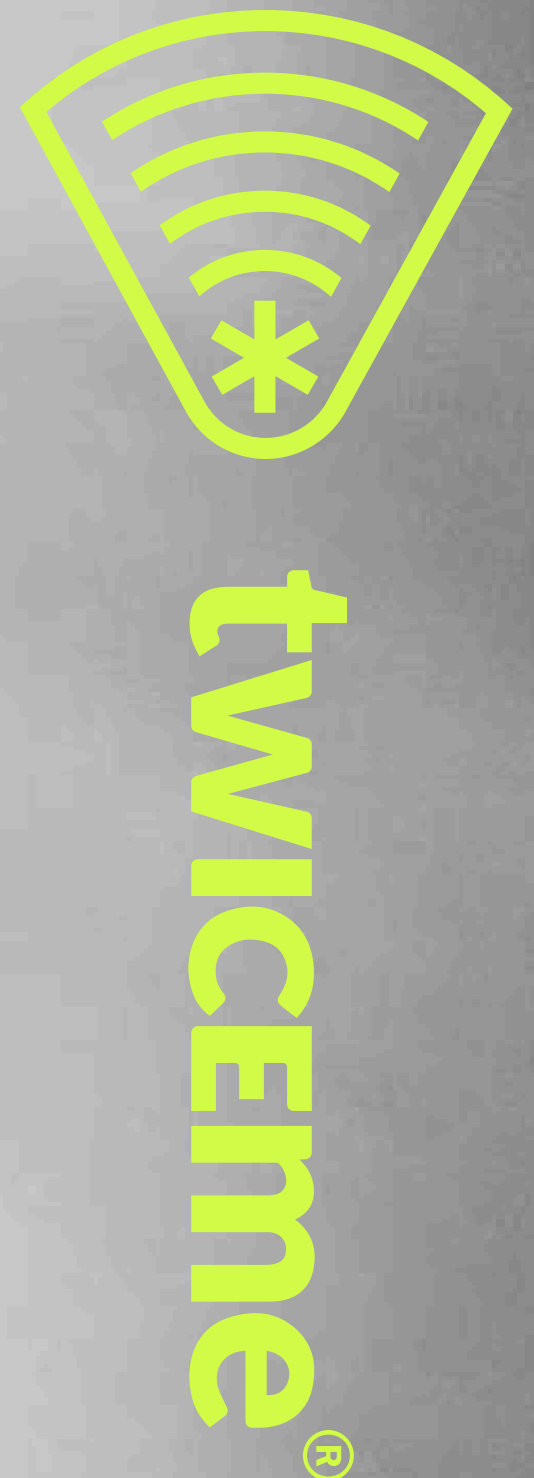

- Harnesses, helmets, and PPE checks remain manual and inconsistent.

Lone Workers

- Isolated workers lack real-time monitoring and safety assurance.

Safety Oversight

- Safety managers lack complete visibility across subcontractors and jobsites.

Benefits for All Workers

2025

All Twiceme app features are free and includes

- Medical ID
