

EXPANDING CREDIT ACCESS TO UNDERSERVED COMMUNITIES

Introducing the Equity Certification

The Equity Certification will be issued to lenders and nonprofits that provide Special Purpose Credit Programs (SPCPs) to protected classes under Equal Credit Opportunity Act (ECOA).

Advancing equity in lending

- The gap between Black and White homeownership rates—44.9% vs. 74.5%—is nearly the same today as it was in the 1970s, when the Fair Housing Act and ECOA were enacted.
- Latino consumers are denied for mortgage loans at almost 1.5x the rate of White applicants.
- Minority small business owners are 2x less likely than White business owners to receive the full amount of financing they seek.
