About Private Markets Group Ltd (PMGL)

Private Markets Group Ltd is an ethnic minority owned, UK & emerging market focused forum organizer, institutional capital introducer & digital media publisher. Founded by Mr Okechukwu Onwuka Kalu, a third-generation member of The Kalu Family; our team has deep industry connections and expertise, we specialise in creating valuable networking opportunities for family offices, institutional investors, real estate fund managers, infrastructure investors, property developers, and real estate professionals.

Our mission is to facilitate meaningful relationships between public-private capital allocators and investment opportunities. We work with the most reputable real asset, private credit and private equity related operating platforms to establish capital raising relationships with leading family offices, sovereign wealth funds, pension funds, insurance companies, endowments, foundations, and institutional real estate investors located in the United Kingdom, Middle East, Africa, North America, Europe and APAC regions.

With years of experience in the institutional investment landscape, we have developed a reputation for hosting exclusive, high-calibre events that deliver exceptional value to participants. Our dedicated team of professionals ensures that each gathering provides optimal conditions for relationship building and knowledge exchange between allocators and fund managers.

"Our forums are designed to create a conducive environment for meaningful dialogue between institutional allocators and investment managers, facilitating partnerships that drive growth across global private markets."

- Jon Hemmings, COO of Private Markets Group Ltd

CEO Welcome Message

It is with great pleasure that I invite you to join us at The UK Real Estate Debt & Infrastructure Investment Forum.

This exclusive private event brings together the leading UK institutional allocators and global family offices that are actively investing for the long-term in Life Sciences, Data Centers, Commercial Real Estate, Residential Development, Infrastructure Projects, Industrial Properties, Healthcare Real Estate, Student Housing, Logistics & Warehousing, Transportation Infrastructure, Energy Infrastructure, Digital Infrastructure, Green Buildings, and Smart Cities.

C-Level Executives, Family Office Principals, Institutional Real Estate Investors, Infrastructure Fund Managers & property development professionals will come together to network, learn and discuss innovative opportunities, portfolio allocations and data-driven investment performance of Real Estate and Infrastructure asset classes.

We look forward to hosting you.

Kind regards,

Mr Okechukwu Onwuka Kalu

Emerging & Alternative Asset Topics

The global investment landscape is evolving rapidly, with new opportunities emerging across multiple sectors.

The UK Real Estate Debt & Infrastructure Investment Forum showcases cutting-edge investment categories that offer portfolio diversification, growth potential and strategic advantages for forward-thinking institutional allocators.

Real Estate Technology

PropTech investments including smart building technologies, property management software, construction technology, and digital real estate platforms. This emerging sector provides opportunities for enhanced property yields, operational efficiency, and tenant experience improvements.

Green Infrastructure

Sustainable infrastructure investments spanning renewable energy projects, green building developments, energy-efficient retrofits, and environmental infrastructure. These investments benefit from regulatory support, tax incentives, and increasing demand for sustainable real estate solutions.

Social Infrastructure

Healthcare facilities, educational institutions, affordable housing projects, and community infrastructure investments. This category represents stable, long-term investment opportunities with social impact, often supported by government partnerships and public funding.

Logistics & Industrial Real Estate

Last-mile delivery facilities, data centers, warehouse developments, and industrial properties supporting e-commerce growth. This asset class continues to benefit from structural shifts in consumer behavior and digital transformation requirements.

Infrastructure Technology

Smart city technologies, digital infrastructure, 5G networks, and fiber optic installations. These investments target the critical digital infrastructure required to support modern urban development and economic growth.

Alternative Lending Structures

Hybrid debt-equity structures, preferred equity investments, and innovative financing solutions for real estate and infrastructure projects. These structures provide enhanced returns while maintaining downside protection for institutional investors.

Structured & Strategic Investments

Structured & Complex Investment Topics

Real Estate Debt Structures

Customized real estate financing solutions combining senior debt, mezzanine finance, and preferred equity to create bespoke risk-return profiles tailored to specific property development projects and institutional mandates.

Infrastructure Asset-Backed Securities

Infrastructure debt investments secured by underlying revenue streams from transportation, utilities, and energy projects, offering yield enhancement and portfolio diversification through exposure to essential services and infrastructure.

Blended Finance Solutions

Public-Private construction and development financing across multiple property types, providing liquidity solutions for developers and entry opportunities for institutional investors seeking exposure to the property development cycle.

Global Investment Opportunities

UK Infrastructure Investment & International Capital Attraction Foreign direct investment opportunities in UK infrastructure projects and real estate development, including renewable energy, transportation, and digital infrastructure investments for international institutional allocators.

ESG-Alignment

Sustainable real estate and infrastructure investments with measurable environmental and social outcomes, increasingly integrated into institutional mandates.

Direct Investments

Co-investment opportunities alongside infrastructure fund managers, allowing institutional allocators to deploy capital directly into selected infrastructure projects.

Institutional Allocation

Multi-decade investment horizons focusing on inflation-hedged real estate and infrastructure.

Who You Will Meet

The UK Real Estate Debt & Infrastructure Investment Forum brings together an exceptional concentration of institutional investment decision-makers, asset managers, and professional service providers.

This exclusive gathering creates unparalleled networking opportunities with senior executives, portfolio managers, and strategic decision-makers who are actively deploying capital across UK and international real estate and infrastructure markets.
