### The Forgotten Zones

The neck and chest are often called the “forgotten zones” and are some of the most delicate areas of the body. Because this skin is thinner and more sensitive, preventative care is essential to protect against early signs of aging. Daily use of a broad-spectrum SPF 30 or higher helps preserve the skin’s smoothness, tone, and overall radiance. When the neck and chest have experienced damage from sun exposure or neglect, retroactive treatments can restore the skin’s appearance and vitality. I offer advanced services designed to soften wrinkles, stimulate collagen, and improve texture. My approach blends prevention with restoration, allowing the neck and décolleté to appear refreshed, refined, and beautifully renewed.

## Win a St.Clair Skin Care Gift Basket

I've partnered with Fred's Flooring to give away one of my luxury St. Clair Skin Care gift baskets filled with some of my favorite skincare items that I personally use in treatments and offer at my spa. This basket is designed to bring a touch of the St. Clair Skin Care experience home, with products chosen to nourish, refresh, and elevate your self-care routine. You can find me featured on the Fred's Flooring social media pages, where all the contest details are waiting.
