

A Message From Marla

Where did the summer go? After months of long, sunny days, vacations, and plenty of outdoor time (even with our best efforts at sunscreen!), the shift into fall feels both refreshing and reflective. The air turns crisp, colors deepen, and our skin starts to crave a different kind of care.

As temperatures drop and humidity fades, skin can become drier, more sensitive, and in need of repair after summer's sun and heat. Fall is the perfect time to reset and restore — shedding dull layers and revealing fresh, radiant skin beneath. Treatments like facials, peels, dermaplaning, and microneedling help replenish moisture, smooth texture, and rejuvenate your glow.

There's so much happening at St. Clair Skin Care this season. Read on for special offers, product highlights, and expert tips to help your skin stay nourished and glowing all the way through the holidays.

Exclusive Fall Treatment Package

This season, purchase 4 microneedling treatments and receive the 5th free — a \$1,875 value for only \$1,500. Your package also includes a 10-day post-procedure Lemieux skincare kit to soothe, hydrate, and enhance your results as your skin renews from within.

What is Microneedling?

Microneedling is a minimally invasive treatment that uses tiny, controlled micro-injuries to stimulate your skin's natural collagen and elastin production. The result? Smoother texture, refined pores, softened fine lines, and a radiant, youthful glow that continues to imrove over time.

Now is the time to reveal your healthiest, most luminous skin. Appointments for the Exclusive Fall Treatment Package are limited — reserve your series today and embrace your autumn glow!
