### **PROFESSIONAL EXPERIENCE**

*Institution and Location*

*Professional Title*

*Dates*

Owner | CEO | CCO  
Advanced Wound Care Expert  
Clinical Educator

2016-current

[www.integumetrix.com](http://www.integumetrix.com)

Integumetrix is a group practice I founded to improve access to advanced wound care services in the acute and post-acute care settings. I collaborate with my administrative team for operations, provide comprehensive advanced wound care education to advanced level providers, lead clinical operations, and perform hands-on patient care. Integumetrix provides treatment to over 3,500 patients a month using an advanced practice nurse practitioner and physician assistant provider model to evolve the care within acute and post-acute healthcare facilities in Tennessee, Georgia, and Florida. The primary focus is to improve patient access to advanced care providers to enhance outcomes and patient satisfaction. Clinical operation responsibilities include development and implementation of evidence-based education programs for providers, establishing and writing order sets, policies, and protocols, developing physician collaboration, and preparing required

documentation to conform with state and federal regulations, payor compliance, provider credentialing and state regulation, ICD-10/CPT billing and coding expertise, workflow collaboration with facility administration to integrate providers, and program initiation and evolution. Work to build collaborative relationships through consulting, education, and staff training. Hands-on clinical functions include performing consultations with comprehensive assessments, advanced wound care procedures, hyperbaric oxygen therapy oversight, and development of a comprehensive individualized treatment plan to diagnose and manage underlying etiologies and convert chronic wounds to a healing state to achieve closure. This model has improved patient navigation to ensure evidence based advanced wound care and continuity of care is provided to improve outcomes, achieve limb preservation, and ensure improvement of patient quality of life.

NEXUS LEGAL

Owner 2012-current  
Professional Legal Nurse Consultant

[www.nexus-legalconsulting.com](http://www.nexus-legalconsulting.com)

Certified Professional Legal Nurse Consultant through Jurex Center for Legal Nurse Consulting. Provide expert witness services for medical malpractice related to wound care. Provide the expertise required to analyze and explain complex medical information for wound management litigation in the acute and post-acute care settings. Responsibilities include medical record review to identify areas of negligence or breach in standard of care, wound timeline development to identify causation if required, develop written expert opinion statements, and render expert testimony for deposition and trial. Experienced expert witness with over 125 cases completed for both plaintiff and defense.

**Healogics, Inc.** Wound Care Specialist 2014-2016  
*Formerly Accelecare Wound Professionals, LLC*  
Nashville, Tennessee

Contract position providing wound care consultations at an acute care hospital, area long term care facilities, and an outpatient wound care center in the Nashville area.

Partner 2000-current  
OSHA Compliance Officer 2013-2015

Nashville, Tennessee  
[www.chateauindustries.com](http://www.chateauindustries.com)

Partner, Co-owner, and prior Occupational Safety and Health Administration Officer with responsibility to ensure compliance with governmental standards for the manufacturing industry of a commercial millwork and casework company. Compliance duties included employee training and certification, maintenance of employee and OSHA files, annual meetings, quarterly on-site inspections, and keeping up with current standards to ensure these were met or exceeded.

**Nashville Vascular & Vein Institute** Medical Practice Development 2013-2014  
Vascular/Endovascular/General Surgery  
Nashville, Tennessee

An independent position where I worked to set up a private practice for Dr. Patrick Ryan, a vascular and general surgeon in the Nashville area. During this time, I gained valuable knowledge on medical business practices, business negotiation and budgeting, office design, workflow setup, payroll and human resource management, website design, logo design, branding and marketing to name a few key projects. There were many lessons learned during this experience that will be valuable during the remainder of my career.

**The Surgical Clinic** Adult Gerontology Acute Care 2012-2013  
Vascular/Endovascular/General Surgery Nurse Practitioner  
Nashville, Tennessee

Collaborated with Dr. Patrick C. Ryan, who is a board certified vascular and general surgeon and provided excellent care to patients who required vascular, endovascular or general surgery for a variety of disease processes. Provided comprehensive inpatient and same day surgical management and discharge of patients who had undergone surgical procedures. Performed preoperative history and physicals with preoperative and postoperative education. Provided comprehensive postoperative management including pain control and education about rehabilitation and health maintenance to inpatients and outpatients as well as collaborative clinic visits with the surgeon. Additional responsibilities included marketing and quality improvement initiatives.

**Nexus Practitioners, LLC** Owner | Consultant 2010-current  
Mount Juliet, Tennessee

Limited liability corporation used to perform various consultation, education, and speaking opportunities using my education and experience as a nurse practitioner and advanced wound care expert. Parent company for Nexus Legal.

**Vanderbilt Orthopaedic Institute** Associate in Orthopaedics 2007-2012  
Orthopaedic Trauma Division  
Nashville, Tennessee

Provided comprehensive inpatient management and discharge of patients who had undergone surgical repair of traumatic orthopaedic injuries. Performed preoperative history and physicals with preoperative education to elective orthopaedic surgical patients. Provided comprehensive postoperative management including pain control, radiographic evaluation, and education about rehabilitation to outpatients through messaging system and during independent clinic visits as well as collaborative visits with surgeons. Additional responsibilities included education to providers, residents, and ancillary clinic staff on wound management through in-services and personal communication. I also served as the clinical expert on wound management for consultation to all providers in the division.

**Vanderbilt University Medical Center** Charge Nurse 1998-2007  
Level 1 Trauma Center Registered Nurse 3  
Nashville, Tennessee

Held positions of staff nurse and charge nurse in this unit for nine years. Duties as a staff nurse included responsibility for comprehensive care of critically ill patients with multiple system injuries. As a charge nurse responsibility included performing bed management for the 31-bed unit, practice as a nurse, surgeon and family liaison and serving as a resource to staff nurses. I consistently performed in leadership roles on the unit educating new and existing staff and led many initiatives on the unit including a lead role in a three-year journey that led to implementation of

an electronic nursing documentation system. Additional responsibilities were coordination of care with Trauma Surgeons, Consulting Surgeons, Case Managers and Ancillary Staff.

<b>Summit Medical Center</b> Emergency Department Hermitage, Tennessee	Registered Nurse	2001-2002 2003-2005
--	------------------	------------------------

Held position of staff nurse in a busy emergency room where I was responsible for the care of patients with acute injuries requiring emergent care decisions.

<b>Mortgage Industry</b> Nashville, Tennessee	1991-1998
--	-----------

Prior to entering the nursing profession, I worked in the home mortgage industry for seven years where I gained exceptional financial skills through employment as well as several college courses in accounting. I held many positions during this career including loan processor, auditor and finally branch manager. I gained essential customer relations and management skills that helped develop me into a leader in the healthcare field.

**PROFESSIONAL ACTIVITIES**

<u>Company</u>	<u>Designation</u>	<u>Dates</u>
Smith + Nephew <i>formerly Osiris Therapeutics, Inc.</i>	Professional Speaker   Educator	2019-current
Provide education to registered nurses, medical doctors, podiatrists, nurse practitioners, and other ancillary wound care staff on wound care and use of placental and umbilical biologic grafts to achieve wound closure.		
HCA   HealthTrust	Delegated Healthcare Professional	2018-current
Approved educator with access to HCA hospitals across the U.S. to provide advanced wound care education to providers and staff as needed.		
Advanced Wound Care Educator		2016-current
Provide basic and advanced wound care education in the acute and post-acute care settings with lectures from 30 minutes to 8 hours as well as hands-on wound care training. Work is performed through invitation at an hourly rate to independent product development staff, attorneys, nurses, nurse practitioners, physician assistants, physicians, resident physicians, case management, dietitians, facility administrators, regional administrators, physical and occupational therapists, and other unlicensed ancillary staff.		
HCA TriStar Division	Wound Care Product Committee	2016-current
Participate in committee meetings for evaluation of new advanced wound care technology, dressings, and therapies for the inpatient hospitals and outpatient wound clinics in the HCA TriStar division of hospitals. This includes testing and evaluation of the research, effectiveness, safety, and proper use of products prior to final approval.		
Advanced Wound Care Consultant		2016-current
Provide expert consultation services as needed for industry vendors to assist with development of new innovative wound care products, advanced technology devices, and adjunct therapies to help improve and advance wound prevention, assessment, and healing modalities.		
American Nurses Credentialing Center	Content Expert	2016-current
Act as content expert for wound care related information on ANCC publications and education as requested.		
PESI Healthcare	Professional Speaker   Educator	2014-2020
Perform one-day seminars on skin and wound care to participants who enroll in educational courses through PESI Healthcare, an accredited continuing education company. Topics include skin basics, and extensive information on evidence based wound cleansing, debriding, treatments, and dressings. Information is also given about prevention efforts and multiple modalities for prevention and evidence-based products.		

American Nurses Credentialing Center      Panel Member      2012

I was selected along with only eight other nurse practitioner experts around the country to serve on the Adult Gerontology Acute Care Nurse Practitioner Standard Setting Panel in December 2012. The purpose of our panel was to establish the minimum passing score for the initial national Adult Gerontology Acute Care Nurse Practitioner certification exam through the American Nurses Credentialing Center.

Various Education Institutions      Clinical Instructor/Educator      2008-current

Provide clinical, professional, and hands-on education to nurse practitioner and physician assistant students to help prepare them to enter the healthcare workforce and provide care to patients in the acute and post-acute settings. Serve as a mentor and resource to assist with their transition into their new career and help them navigate the complex healthcare network, as well as guide them on how to ensure they are compliant with state and federal regulations for practice as a nurse practitioner.

- 2019 “Grafix®, GrafixPL®, & Stravix®: Incorporating Placental Tissue Grafting into your Practice, Clinical indication and utilization” for Smith+Nephew at various locations across the United States as requested throughout the year.
- 2018 “The Role of Nutrition in Wound Care” to physician and nursing staff employed in an outpatient advanced wound care center at Centennial Medical Center in Nashville, TN.
- 2018 “Hands-on Skin & Wound Care” presentation to facility employed nursing, and other ancillary staff at Northeastern Vermont Regional Hospital.
- 2018 “Advanced Skin and Wound Care: Hands-on course”. 8-hour course presented at various locations across the United States as requested for PESI Healthcare.
- 2018 “Grafix®, GrafixPL®, & Stravix®: Incorporating Placental Tissue Grafting into your Practice, Clinical indication and utilization” for Smith+Nephew at various locations across the United States as requested throughout the year.
- 2017 “Advanced Wound Care in the Outpatient Setting” to physician and nursing staff prior to opening an outpatient advanced wound care center at Hendersonville Medical Center in Hendersonville, TN.

- 2017 “Advanced Wound Care in the Outpatient Setting” to physician and nursing staff prior to opening an outpatient advanced wound care center at Centennial Medical Center in Nashville, TN.
- 2017 Adjunct Faculty lecture at Vanderbilt University School of Nursing on “Skin and Wound Care: Prevention and Treatment of Acute and Chronic Wounds”
- 2016 Adjunct Faculty lecture at Vanderbilt University School of Nursing on “Wound Care: Prevention and Treatment: What’s changed in 2016?”
- 2015 Adjunct Faculty lecture at Vanderbilt University School of Nursing on “Wound Care: Prevention and Treatment”

### **ACADEMIC APPOINTMENTS**

Adjunct Faculty – Vanderbilt University School of Nursing 2012-2018

Associate in Orthopaedics – Vanderbilt University School of Medicine 2007-2012

### **RESEARCH & PUBLICATIONS**

*Health Literacy in an Orthopaedic Trauma Patient Population: Improving Patient Comprehension with Informational Intervention*

Published in The Journal of Orthopaedic Trauma, 2013

Presented at the American Orthopaedic Association Annual Meeting, 2014

Presented at the Canadian Orthopaedic Association Annual Meeting, 2014

This research project was performed in collaboration with Dr. Hassan Mir. My involvement included development of an educational handout for patients regarding injuries including details of injury, type of fixation and education on the postoperative course. An initial questionnaire was used at the postoperative visit to assess understanding of these items after verbal communication alone. The questionnaire was then initiated, and the same questionnaire was again used to assess understanding of a separate group of patients. Results showed significance with a positive correlation in health literacy when written materials were used for patient education versus verbal communication alone.

Published for retail purchase in the Apple Store 2012-2019

Using the evidence-based practice information from my doctoral scholarly project; I developed a smart phone application called “Wound NP”. The application covered the basics of wound care including education, dressing information, assessment, terminology, comorbidity recommendations and treatment algorithms for care of a closed sutured/stapled wound, care of wounds with soft tissue loss/necrosis and care of superficially infected wounds. The application is currently inactive for renovation.

*Doctor of Nursing Practice Scholarly Project: Wound Management Guidelines for the Orthopaedic Patient Population*

Published by Vanderbilt University School of Nursing, 2012

Surgical wound complications and delayed healing account for increased visits and associated costs. Gaps in performance of evidence based wound management by providers due to limited experience and lack of formal training may be a contributor. The purpose of this scholarly project was to develop evidence-based guidelines for care of a postoperative surgical incision, care of a wound with soft tissue loss and treatment of a superficial wound infection to connect providers to the evidence base and improve patient outcomes.

### **HONORS & AWARDS**

- 2012 Sigma Theta Tau, DNP Scholarly Project Poster Presentation, "Wound Management Guidelines for the Orthopaedic Trauma Patient Population" – 2nd place
- 2008 Distinguished Service Award for 10 years of dedicated service to Vanderbilt University Medical Center
