Mercedes-Benz Agility

Flexible and affordable finance

How does Mercedes-Benz Agility work?

At the start of the agreement your Business Manager will advise you of the Guaranteed Future Value for your van based on the mileage that you expect to cover during the course of your agreement. This Guaranteed Future Value is equal to the final Optional Purchase Payment – but you don't have to decide whether to make this payment and keep the van until the end of the agreement. In the meantime, you simply choose how long you want to keep the van, how much you'd like to pay as an initial deposit and the monthly payments that suit you best. When the agreement comes to an end you can either purchase, return* or part-exchange the vehicle.

* Subject to excess mileage and damage charges.

Mercedes-Benz Contract Hire

Your fleet, all taken care of

How does Mercedes-Benz Contract Hire work?

Instead of owning the vehicle or vehicles, you hire them for a fixed period for a fixed monthly rental. Because this rental is based on the difference between the initial value of the vehicles and their projected value at the end of the agreement, you repay only a proportion of the vehicle's costs, which can only be good news for your cash flow. You will also benefit from Road Fund Licence included in the rental and with a Contract Hire agreement you avoid any concerns about the future value of your vehicle or selling it on – at the end of your agreement you simply hand it back*.
