

MRCF Pilot Requirements Test

06/21/2023

Pilots must be able to perform the following criteria, unaided in the presence of a MRCF Officer

The officer will inform you what the next maneuver will be.

- 1) Perform engine startup where appropriate and equipment checks.
- 2) Taxi to runway and perform normal takeoff.
- 3) Perform a left to right then a right to left controlled rectangular pattern within the field boundaries.
- 4) Perform a horizontal figure eight while maintaining altitude.
- 5) Perform normal landing approaches from both a Left and Right direction.
- 6) Perform a normal landing based on wind conditions.
- 7) Taxi back to flight station.

Pilot will be allowed 2 attempts per day to fulfill the above criteria in obtaining their Pilot status. Those failing are encouraged to practice and to reschedule their next attempt to another day.
