

Mount using #10x24 screw, washer and nut.

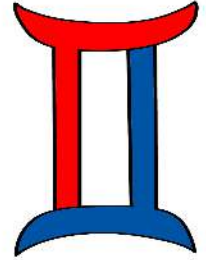

12" Grates shown but the larger PK 360/Original mounting holes are in the same location. The Grates simply extend beyond the edges of shown grates.

PK ORIGINAL/360 Fixture Grill Grate Mounting

This mounting hole on the fixture is offset from the opposite side hole. Use this point as the initial reference to position the grates. If holding your fixture in front of you this hole will be on the bottom left and is offset to the left of the opposite side mounting hole.

Starting from the bottom left mounting hole connect grates from left to right using shown connections.
