Reclaim Your Youthful Complexion with SCITON® PROFRACTIONAL™ LASER TREATMENT PACKAGE

The ProFractional™ laser treatment dramatically improves the skin's appearance, including wrinkles, post-traumatic scars, acne scars, aging, and sun-damaged skin. This technology uses the Erbium laser's energy to make thousands of microscopic fractional channels into the skin while leaving the surrounding skin intact. The surrounding areas of untreated skin stimulate the body's natural healing process. This results in a plumping up and smoothing out of wrinkles, lines, scars, and other imperfections, in just one treatment.

THE PROCESS GOES AS FOLLOW:

- VI PEEL Precision Plus– Includes; BellaMicro Micro-Dermabrasion, Medical Grade Facial Peel (Pre-Treatment)
- ProFractional™ Laser Resurfacing (Procedure)
- VI-PEEL (The Original) (Post-Laser Treatment)
