

WOMEN'S LABS

**KNOW YOUR NUMBERS.
EMPOWER YOUR HEALTH.**

TEST. UNDERSTAND. TAKE CONTROL.

HORMONE PANEL

Evaluate key hormones like estrogen, progesterone, testosterone, and DHEA.

THYROID PANEL

Assess thyroid function to support energy, metabolism, and overall well-being.

IRON & FERRITIN

Check iron levels and storage to help prevent fatigue and support healthy blood.

VITAMIN D

Essential for bone health, immune function, mood, and hormone balance.

B12 & FOLATE

Support energy production, brain function, and red blood cell health.

INFLAMMATION MARKERS

Identify underlying inflammation that can impact hormones, mood, and long-term health.
