Teo	chnical Notes
	* = indicates that an estimate is not available
2)	Data based on responses from six semiannual panels over a 3-year period. See Technical Notes for additional information. http://www.bls.gov/oes/current/oes_tec.htm
	Estimates were created using LEWIS (Local Employment Wage Information System). LEWIS uses a slightly different method regarding rounding, so there will be some minimal variation between LEWIS estimates and BLS estimates.
4)	Annual wages were calculated by multiplying unrounded hourly wages by 2,080 (52 weeks X 40 hours/week). Annual wages include fractions of one cent, while hourly wages rounded these fractions.
5)	Occupations where there is no hourly wage, the annual wage was calculated directly from the survey data.
6)	Hourly wages for occupations where workers typically work fewer than 2,080 hours per year are not available.
7)	Prepared by the Arizona Office of Economic Opportunity in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics
