

MAB APPRENTICESHIP PROGRAM GUIDE

You are required to bring your own PMU machine as well as your own needles. The academy will provide you with any other supplies.

- ✓ We ask that you please do your own research regarding your town's regulations on apprenticeships, as regulations may vary significantly from town to town and the **hours** you will need for an apprenticeship will depend entirely on the regulations of the town you would like to practice in.
- ✓ The academy (MAB) is **not** responsible for providing you with clientele. However, if there are any difficulties, we can advertise on our social media platforms, but we do not guarantee that this will necessarily secure you a client. (Clients must be booked according to MAB's schedule and technician time.)
- ✓ You are encouraged to bring as many clients as you can within MAB's allocated hours. Each payment for the procedure made by the client will go *directly to you*. These fees are made by you, and will usually cover the cost of your apprenticeship.

Useful Links to you for further information regarding regulations:

*Again, please do your **own** research regarding the town in which you would like to practice in.*
