RESPIRONICS

- SimplyGo Mini

SimplyGo Mini

Portable oxygen concentrator (POC)

The SimplyGo Mini is designed to help you grow your business by giving you the ability to offer the light weight, attractive features and true reliability that today's patients demand in a POC.

The Right Fit

Built for the demands of today's active patients

The Philips SimplyGo Mini, you can offer your patients the choice for excellence in lightweight portable oxygen concentrators.

Simply smart design

As the smallest and lightest POC ever developed by Philips Respironics, SimplyGo Mini is built for today's patients with features like: attractive and sleek design; easy-to-remove external battery; light weight intuitive, easy-to-read screen; and a strong, comfortable carrying case.

Durability matters to your business

When you place a POC, you need to know that it's going to have the reliability and ruggedness to help your business eliminate recurring oxygen delivery costs and cylinder hassles; reduce maintenance costs; ease inventory management; and minimize patient calls.

Reliability that's simply portable

The SimplyGo Mini is the newest, smallest, and lightest member of the Right Fit portfolio of oxygen products from Philips Respironics. It is designed and rigorously tested to be reliable and durable in real-world environments, undergoing the same testing regimen as its counterpart, the proven SimplyGo POC.
