

We're off to the HEFMA 2023 Leadership Forum

Doubletree by Hilton

Milton Keynes

on the

25th & 26th May 2023

The HEFMA Leadership Forum is the most innovative healthcare estates event in the UK. The event attracts senior estates and facilities directors from across the country, providing exhibitors with the opportunity to do face to face business with those responsible for spending multi-million pound budgets.

Portering Task Management

Streamline your operations with efficient task prioritisation, improve allocation of resources, manage the services you rely on in teams such as Porters, Security, Car Parking, Domestics, Postal Services, Linen and Waste Collection services or Cross Site Transport... in fact, the solution can be used in any setting where a task is required.

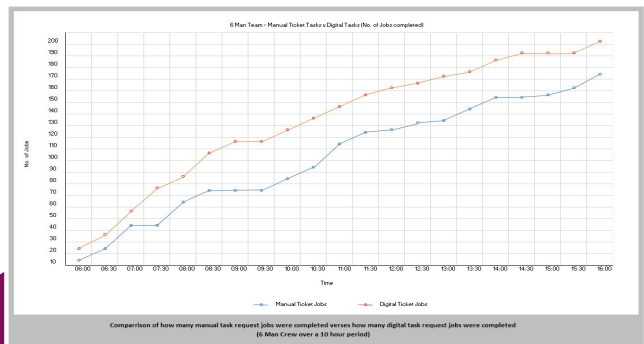

The WebV Portering Task Management tool allows staff, the ability to log work tasks on a dedicated digital platform, manually or automatically allocate tasks to your teams, who will receive work allocations via mobile devices.

Providing peace of mind, WebV comes with its own digital support package ensuring your organisation is equipped for the 21st century.

Features

The WebV System is an intuitive solution which utilises PC and Mobile devices and covers functionality such as:

- Task requesting
- Task configuration (supervisor)
- Task allocation (supervisor)
- Individual task lists (per user)
- Task completion
- Task rejection (back to central pool)
- Android or IOS
