(bundles are 5 fentanyl test strips together)

200 Individual Narcan Units

247 "Cuties" Kits

(Narcan + Fentanyl Test Strips)

1 Case of Narcan

EVENT SUMMARY

On March 12, 2026, S2Savers participated in the Wellspring Event at Modesto Junior College, where we had a booth and provided overdose prevention education and harm reduction resources.

EDUCATION & TRAINING

 In addition to supply distribution, the S2Savers team provided **live education and training** to:

- ◆ Recognizing the signs of an opioid overdose
- ◆ How to properly administer Narcan
- ◆ What steps to take during an overdose emergency
- ◆ How to access local support services and community resources.

 Participants also received **printed Narcan instruction guides** so they can confidently respond if an overdose occurs.

Together, we are building a safer and informed community.

Saving Lives. Reducing Stigma.
