

Esperanto Gallery & Studios Inc. is a new space for a new language of art to emerge. We are a group of like-minded visionaries, creating a new symbolic order for creation, conversation and the business of connecting art, artists and art lovers. Esperanto is a language of universality; a supra culture, transdisciplinary, adaptive and evolving. We are forging synergy between creatives of all kinds; creating new connections, new cultures, and our own new paths. Located in Markham, ON, in a former convenience store, it serves as the first contemporary art space of its kind in the area, but certainly not the last.
