A little about us... We are a father and son team that truly enjoy all aspects of the fishing journey. Making tackle, the adventure of the catch and especially the memories; we enjoy it all!

Lincoln makes all the flashers. With his young eyes and steady hands, he creates high quality flashers that really jump out in the water.

We can't say thank you enough to all of you that have supported us in this adventure so far, we're looking forward to meeting more fishermen and women throughout this journey.

Thank you! - Tom and Lincoln
