

TRACKSAFE
SOLUTIONS AUSTRALIA

CAPABILITY STATEMENT

ABOUT US

Track Safe Solutions Australia is a leading provider of track protection officers and rail maintenance support services in Western Australia. Our strength lies in our comprehensive understanding of the rail industries complex safety regulations and challenges, allowing us to successfully offer tailored solutions to meet your specific business needs. As a reliable partner, Track Safe Solutions is dedicated to delivering highly skilled and trustworthy personnel who effectively oversee and execute your rail safe working and maintenance projects whilst upholding the highest standards in safety and communication.

MEET OUR DIRECTOR

With over a decade of experience in the heavy machinery and mining industry, Andrew successfully transitioned to the rail industry in 2016 which led to the founding of Track Safe Solutions Australia.

Andrew has a strong understanding of the complexities and safety requirements of the rail industry built on a strong foundation of operational and leadership roles in rail grinding, NDT rail inspection and track protection operations. Andrew promotes strong and effective communication and attention to detail at Track Safe, whilst ensuring strict adherence to safety protocols. Through his transparent leadership style, Andrew builds trust within the organisation and with his clients, setting high standards across the rail industry.

OUR PURPOSE

Vision

At Track Safe Solutions Australia, our vision is to lead the rail industry by providing highly experienced track protection officers and track maintenance support services across the metro and resource rail networks. We are dedicated to enhancing safety, quality and operational excellence, whilst fostering strong partnerships and empowering our workforce.

Mission

Our mission is to deliver exceptional track protection services across the rail industry in Western Australia whilst providing track maintenance support services to enhance the operational performance and sustainability of the rail network. We are committed to ensuring safety, reliability and efficiency on each job to contribute to the overall excellence of each project.

OUR VALUES

Diversity

Safety

Integrity

Culture

Track Safe Solutions is deeply committed to fostering an environment that celebrates diversity and cultural inclusion within the company. We believe that a diverse workforce enriches our workplace and leads to more innovative solutions. Our dedication extends beyond our employees; we strive to create an inclusive atmosphere for everyone on site. By valuing different perspectives and backgrounds, we enhance collaboration and understanding, ultimately strengthening our community and driving success for all.

Safety

Track Safe Solutions prioritises safety and innovation, with a strong focus on rail safety. As a rail safety-oriented organisation, we meet ONRSR obligations and comply with Rail Safety National Law requirements, fully adhering to our clients' rail safety policies and implementing our own risk management processes. Our commitment to safety as a core value ensures a secure work environment, empowering everyone to contribute to a safer future in the rail industry.

Environment

By integrating sustainable practices, we aim to minimise our ecological footprint while fostering positive relationships with local communities. This commitment is reflected in our approach to developing innovative solutions that not only enhance safety but also promote the health of the environment. Through thoughtful planning and engagement with stakeholders, Track Safe Solutions endeavors to create a safer, greener future for everyone involved.

Capabilities

Track Protection

Track Safe Solutions Australia provides comprehensive track protection officers, safe working personnel and Hi-Rail Operators across Western Australia. We can engage in track maintenance support services and offer the ability to source equipment as required for an efficient and reliable service to support all your rail needs.

Track Safe Solutions specialises in the planning, implementation and monitoring of track protection measures. Our extensive expertise in the rail industry ensures that every project meets the necessary safety requirements while effectively mitigating risks associated with railway operations.

Our team oversee the implementation of various protection measures, employing the latest technologies and methodologies to safeguard both personnel and assets. Our commitment to monitoring ensures continuous oversight of track protection systems, allowing for adjustments and improvements as necessary to adapt to changing conditions or emerging risks. With Track Safe Solutions, clients can trust that their rail operations are in safe hands, allowing them to focus on their core business activities.

Hi-Rail Operators

We pride ourselves in our team of highly experienced safe working officers and hi-rail operators. Our operators are dedicated to safely operating various hi-rail vehicles from excavators, trucks and light vehicles on track. Track Safe Solutions can provide operators and if required we can source equipment for a seamless and efficient service to meet your business requirements.
