

ENGINEERING GREATNESS

AUS COAST ENERGY IS A PERTH, WESTERN AUSTRALIAN COMPANY THAT WAS ESTABLISHED IN 2017 WITH A PLAN TO HELP IMPROVE AN INDUSTRY AND CREATING A BRAND THAT WOULD MOVE INTO THE FUTURE. WE ARE ASSOCIATED MEMBERS OF NECA AND NESMA

## WHY US

Aus Coast Energy specialise in switchboard manufacturing, offering assistance from original consultation to the end of the project. With experienced drafting and engineering available we pride ourselves on achieving the necessary requirements of our clients, focusing on the outmost importance on customer satisfaction and this is including on time delivery to meet project deadlines. Our cost effective solutions don't just end when our product leaves the workshop, we can offer many other services to keep the product working correctly and safely overtime and making sure you get the best out of it.

## CLIENTS & PROJECTS, PRODUCT RANGE & SUPPLIERS:

Our clients range from your everyday electrician who needs advice and guidance, all the way to some of WA largest contractors who are looking for the best quality product to produce. We have assisted with projects spanning over many sectors, from schools, shopping centres and hotels, to commercial and domestic installations, refurbishments and mining sites. With servicing a variety of projects, our product range is very diverse to achieve our goal of meeting customer satisfaction.

- Panel Boards, motor control boxes and load centres (no job to small)
- Light, Power and Mechanical distribution boards
- Site Main, Building Main and Main Distribution boards
- Western Power, CT Metering and all other metering requirement boards

We also have strong relationship with our suppliers, ABB, Schneider and NHP. Making sure we provide our clients with the best product support, also keeping up to date with newest technical developments
