POWERPROZE

STORIES WITH PURPOSE.

PowerProze is a publishing company founded by Andreea Tudosa in the pursuit of sharing stories that matter with the world. The company supports artists who want to self-publish.

We want to give voice to beings from all backgrounds, whose message can help improve our society.

Sharing our stories is just as important as planting a tree. It creates the much-needed oxygen that our imagination needs to see a brighter future. Because if we envision it, we can make it happen.

LEAH'S ADVENTURES

Leah's Adventures is an illustrated children's book series that addresses real issues that anyone can experience, providing real-life tools that anyone can use.

Leah's universe is set up in nature, including bugs and natural elements.

Leah is an orange ladybug who is brought up in a mixed-race family. She meets a special mentor-friend who will guide her on her way to becoming a free thinker.

LEAH TRAVELS TO THE RED MOUNTAIN PEAK

A BOOK ON MINDFULNESS, SPEAKING UP AND LETTING GO

The first book of the series addresses the themes of bullying and racism.

The emphasis is on gaining control over powerful emotions by thinking of your breath. Speaking up and standing up against The Bully is also a core lesson.

The book does not describe rude behaviours to prevent children from replicating them.

The story encourages a growth mindset by breaking the link between identity markers and actions (Eg. *he/she acted rude vs is rude*).

A. S. TUDO

AUTHOR AND ILLUSTRATOR

A. S. Tudo is an emerging London-based author and painter.

'Leah Travels to The Red Mountain Peak' is her first published work and it focuses on addressing well-known societal issues, such as bullying and racism.

Her first book also touches on the behind-closed-doors issue of how adults might speak to their children and accountability.

'To build a better world, we need to invite our children into a life that they can thrive in. And it all starts with kindness' said the author.
