

# IDLENOMADS – About Us

---

## Mission Statement

Idle Nomads aims to bridge the digital divide by providing affordable, leased mobile devices to consumers across Africa, partnering with leading telecom providers to ensure seamless connectivity and peace of mind with every device covered by warranty.

## Our Partnerships

Our partnerships with African telecom companies ensure that we bring top-tier mobile technology to consumers through trusted channels.

Through direct OEM relationships have access to new customisable handsets as well as ability to source A+ grade reconditioned devices

## Idle Nomads Story

Founded with the vision of making mobile connectivity accessible to all, especially in regions where affordability and access to technology can be challenging. With strategic headquarters in Dubai, a global hub that allows us to streamline procurement, logistics, and partnerships, we are perfectly positioned to serve the African market

## Our Services

Mobile Phone Leasing: Flexible and customisable leasing plans to improve telco take rate and product offerings as well as meet the needs of the local consumer market

Warranty and Device Support: All leased device come with a warranty covering repairs or replacements for faulty hardware or software, and out of warranty in country repair options
