TrueSource, LLC ("TrueSource") provides services to its customers to sanitize and maintain facilities that are mission critical to supply chain logistics nationwide, including: break/fix repairs of doors, locks, windows, light fixtures, and dock levelers, as well as janitorial and hazmat services. TrueSource facilitates these services by subcontracting the work to local service providers, who perform the work at the request of TrueSource. TrueSource is aware that several states and local jurisdictions have begun issuing "shelter in place" or "stay at home" orders (the "Orders"), from California to as far east as New York. TrueSource has reviewed these various Orders and has identified one commonality: essential businesses and businesses necessary to maintain the continuity of operations to federal critical infrastructure sectors, as identified by the Department of Homeland Security, Cybersecurity & Infrastructure Security Agency (CISA), are being exempted from the Orders. Below is a sampling of the countless industries served by TrueSource, through the use of local subcontractors, nationwide; all of these industries are vital to the national supply chain and qualify as "essential businesses":

- Retail centers and districts
- Grocery stores
- Drug stores
- Logistics providers
- Telecommunications providers
- Hardware suppliers
- Government facilities
- Medical facilities

Without the services provided by TrueSource and its subcontractors, which includes repairing broken doors/locks/windows to ensure the security of pharmacies and clinics, maintaining functional loading docks and doors for supermarkets and national distribution centers, and janitorial and hazmat services for high-traffic retail centers, these essential businesses cannot provide the necessary and vital services required by the American public at this time.

We ask that you please permit the holder of this letter, a subcontractor of TrueSource, to perform the services necessary to maintain the continuity of operations to federal critical infrastructure sectors.

Kirk E. Yosick
General Counsel and Chief Administrative Officer
TrueSource, LLC
