

March 23, 2020

Dear Supplier,

First and foremost, the Zoetis team hopes each of you and your family members are safe, healthy, and continue to remain that way.

The Covid-19 coronavirus is creating a unique and challenging situation for everyone. As defined by the CDC, essential production includes those employed in veterinary health; manufacturing and distribution of animal medical materials, **animal vaccines, animal drugs,** feed ingredients, feed, and bedding, etc.; transportation of live animals, animal medical materials; transportation of deceased animals for disposal raising of animals for food; animal production operations; slaughter and packing plants and associated regulatory and government workforce.

Zoetis facilities will continue production operations and receive deliveries as usual. We are taking a host of precautions to protect our employees and suppliers that include limited supplier visits, minimizing the number of suppliers on-site to complete capital projects, perform services related work, and business critical support.

We will continue to provide regular updates as changes are implemented.

Sincerely,

Kalamazoo GMS Leadership Team
