

HORIZON MARITIME SECURITY

SAFE ● ACCREDITED ● PROFESSIONAL

About Us

Horizon Security Solutions Ltd is an Internationally renowned and accredited Security and Medical Company founded in a response to the growing need for bespoke solutions for individuals and corporate clients.

Operating as a Private Maritime Security Company was initiated at the request of clients requiring an ability to identify and mitigate risk at sea and utilise experienced personnel in the protection of floating assets, their owners and crews and the goods or personnel carried on board. This allows Super Yacht Owners to move their assets and families as they wish and Commercial Shipping assets to transit known High Risk Areas knowing their business can be conducted with peace of mind and confidence in the Security Provider.

We specialise in offering **SAFE ACCREDITED** and **PROFESSIONAL** integrated solutions across the whole plethora of maritime assets with the added option of that security being continued seamlessly onto landside, if required.

Services

- Crew Training
- Owner & Guest Protective Services
- Security Audits and Consultancy
- Technical Surveillance Counter-Measures
- Security Crew Placement
- New Build Consultancy
- Armed
- Counter-Piracy
- Commercial Ship Security
- Security Ship Review

Maritime Security

Commercial Shipping and Super Yacht Captains, crew, managers and owners once again face difficult operational decisions with an increase in pirate activity and with Kidnap and Ransom on the ascent. Horizon Maritime Security can provide expert security solutions around the globe including armed protection services within hostile risk areas both at sea and on land.

Personnel

Our team of highly experienced security professionals are discreet and ready to counter the growing threats at sea and in port. Equally at home on a Super Yacht or the latest Product Tanker, our teams are individually vetted to internationally recognised standards in order for them to be able to deliver a **SAFE ACCREDITED** and **PROFESSIONAL** service to our clients.

Horizon Maritime Security draw their teams primarily, but not exclusively, from former UK Armed Forces personnel with a proven operational maritime pedigree.

This ensures the right experience, expertise and innovation is brought to bear, in order to provide a cutting edge approach to maritime security.
