

DELTA S  
DS1045

The all new Delta S DS1045 is one of the quietest and lightest integrally suppressed PCCs available. The DS1045 has a serviceable monocoire suppressor design available in your choice of either 10mm or 45ACP. The core and tube are coated with our proprietary suppressor coating for ease of cleaning. The DS1045 comes with a limited lifetime warranty and repair services.
