

## Press Release

### **DRONE SOLUTIONS – STRENGTHENS ITS AERIAL OPERATIONS TEAM** *Supporting Efforts to Save Lives and our Planet*

**Singapore, January 4, 2021** Drone Solutions today announced that Mr. Michael Shama has joined the Company as Aerial Operations Manager in support of the Company's Unmanned Aerial Systems with a special emphasis on search & rescue product demonstration, the deployment and commissioning of UAV's and the support of customer flight training programs.

Mr. Shama a licensed helicopter pilot, aircraft pilot, UAV pilot and flight instructor has over 15 years of flight experience in numerous aircraft. After leaving military services as an Officer has been involved in environmental, humanitarian and oil & gas industry flight, support, remote site establishment and operational activities including anti-poaching operations and supporting, managing and operating a rotary wing humanitarian aid response on behalf of the United Nations to contain and curb the Ebola outbreak.

Mr. Shama has a Bachelor's degree from Rhodes University, graduated from the Royal Military Academy Sandhurst and was further schooled at Embry-Riddle Aeronautical University.

#### About Drone Solutions

Drone Solution Services Pte Ltd is a privately held Singapore company engaged in researching, designing, developing, manufacturing, marketing, selling, licensing and patenting proprietary intellectual property rights related to Unmanned Systems Technology products.

Born from its Founder's vision to make Unmanned Systems available to benefit society from lifesaving and Search and Rescue, to supporting aid programs, from environmental protection to oil spill intervention; his motto has always been, *"no matter what, no one is left behind"*; with this spirit in this new era, Drone Solutions mission is to make unmanned vehicles available to support humanity.

Drone Solutions is in a constant pursuit of excellence through technological innovation and novelty enabling it to provide bespoke and advanced state-of-the-art unmanned aerial systems ("UAS"), unmanned underwater vehicles ("UUV"), unmanned surface vehicles ("USV") unmanned ground vehicles ("UGV") and industrial autonomous surface vessel ("ASV") solutions across a diverse range of segments.
