

## Press Release

### **DRONE SOLUTIONS – CHAMPIONS HUMANITARIAN AID** *Supporting Efforts to Monitor Social Distancing and Movement*

**Singapore, May 1, 2020** Drone Solutions today launched its *Drones in the Age of COVID-19* humanitarian program which focuses on providing especially low priced, professional quality UAV's provided by a number of international manufacturers of innovative products which it represents, which have committed themselves to support this humanitarian effort to fight the spread of this dreaded disease.

The UAV's and ancillary hardware are being purchased by financial sponsors of the Program for distribution, making it possible for recipients in the most needy areas in the world to then effectively monitor social distancing and enforce movement restriction regulations thus halting the further expansion of COVID-19.

When announcing the start of the Program Gianluca Salone the Founder and Executive Director of Drone Solutions said " *In the new world order where social distancing recommendations from WHO and other respected humanitarian organizations is critical to prevent the spread of this dreaded disease; enhanced efforts to monitor social distancing and movement are critical. UAV not only can help monitor social distancing efforts but will also allow for the timely dissemination of messages to inform and educate the general population or can be used for last mile, fast delivery in support of medical response; the reason why Drone Solutions today in partnership with leading UAV manufacturers is launching this promotional campaign to make UAV available for the good of all.*

More information can be found on the special [COVID-19 RESPONSE](#) page of Drone Solutions website, which you can reference now to learn more about this initiative.

#### About Drone Solutions

Drone Solution Services Pte Ltd is a privately held Singapore company engaged in researching, designing, developing, manufacturing, marketing, selling, licensing and patenting proprietary intellectual property rights related to Unmanned Systems Technology products.

Born from its Founder's vision to make Unmanned Systems available to benefit society from lifesaving and Search and Rescue, to supporting aid programs, from environmental protection to oil spill intervention; his motto has always been, "no matter what, no one is left behind"; with this spirit in this new era, Drone Solutions mission is to make unmanned vehicle available to support humanity.

Drone Solutions is in a constant pursuit of excellence through technological innovation and novelty enabling it to provide bespoke and advanced state-of-the-art unmanned aerial systems ("UAS"), unmanned underwater vehicles ("UUV"), unmanned surface vehicles ("USV") and unmanned ground vehicles ("UGV") solutions across a diverse range of segments.
