

## Press Release

### SHARK COMES TO SOUTH EAST ASIA

*Demonstrations coming soon in both Singapore and Malaysia*

**Singapore, March 19, 2021** Recently Drone Solutions proudly took delivery of the first Sharks from RanMarine Technology™ for introduction in South East Asia which are remote controlled and autonomous drones that swim through water, extracting unwanted materials from it and gathering data about the marine environment.

Increasingly more Smart Green Cities are utilizing the modern autonomous technology Sharks provide to monitor, clean and maintain their water health.

#### About Shark Technology

Drone Solutions markets and sells three environmentally responsible and distinctive products, which have zero greenhouse emissions and act as intelligent tools to clean our waters.

*The WasteShark®* will eat plastics and other litter; detect chemicals in the water; extract alien and pest vegetation.

*The DataShark™* which includes the same functionality as the WasteShark is also a learning machine continually collecting and analyzing data about the marine environment.

*The OilShark™* collects surface and subsurface oil and other harmful chemicals which it detects.

More information on Shark's can be found at <https://dronesolutionservices.com/wasteshark> and <https://www.wasteshark.com/>

#### About Drone Solutions

Drone Solution Services Pte Ltd is a privately held Singapore company engaged in researching, designing, developing, manufacturing, marketing, selling, licensing and patenting proprietary intellectual property rights related to Unmanned Systems Technology products.

Drone Solutions is in a constant pursuit of excellence through technological innovation and novelty enabling it to provide bespoke and advanced state-of-the-art unmanned aerial systems ("UAS"), unmanned underwater vehicles ("UUV"), unmanned surface vehicles ("USV") unmanned ground vehicles ("UGV") and industrial autonomous surface vessel ("ASV") solutions across a diverse range of segments.
