December 18, 2020

Greetings SRSO Coalition for Nevada County,
Time for the latest SRSO updates and information!

**** Please note that SRSO General Meetings continue to be suspended in compliance with local and State COVID-19 guidelines. We are sending out SRSO update letters as a means to connect with the Coalition to share pertinent information, keep you all updated on SRSO efforts, and provide notification when we are able to schedule meetings again.

The County continues to work with the Consultant they have hired for the study on Mobile Home Park affordability in Nevada County. As stated in previous newsletters, the study will present information on the various aspects of mobile home park living and will recommend options on retaining this important affordable housing in our communities.

****PLEASE NOTE THE FOLLOWING:**

Originally the study and recommendations were to be presented to the Board of Supervisors (BOS) at their annual Workshop in January 2021. Due to the COVID-19 situation, the 2021 BOS Workshop will be virtual and the agenda condensed. Due to this change, the Nevada County CEO's office has requested the MHP Affordability study and recommendations be brought to the full Board of Supervisors as a presentation item in late January or early February instead of the BOS Workshop

County staff will let us know the date/time of this BOS meeting/presentation in advance and whether it will be in-person or remote. We, as the public, will be able to submit questions and/or comments at this meeting. We will keep the Coalition updated as this process moves along.

If you have questions and/or know of any folks who do not have email and would like to receive hard copy update letters, please have them contact us.

As a Coalition, **TOGETHER WE ARE STRONG** and your support and participation are vital!!

MERRY, HAPPY, SAFE, and HEALTHY HOLIDAYS TO ALL! Ho, Ho, Ho.....
