

Color Currents
BY MARSH

Color outside the lines

Cabinetry is at the heart of what we do—defining form, function, and aesthetic in the spaces we create. Whether anchoring a kitchen, shaping a mudroom, or elevating a bath, it creates the foundation for personal style and the layering of textures, materials, and, most importantly, color. With this in mind, Marsh Cabinets is proud to introduce Color Currents, a thoughtfully curated, painted palette designed to inspire.

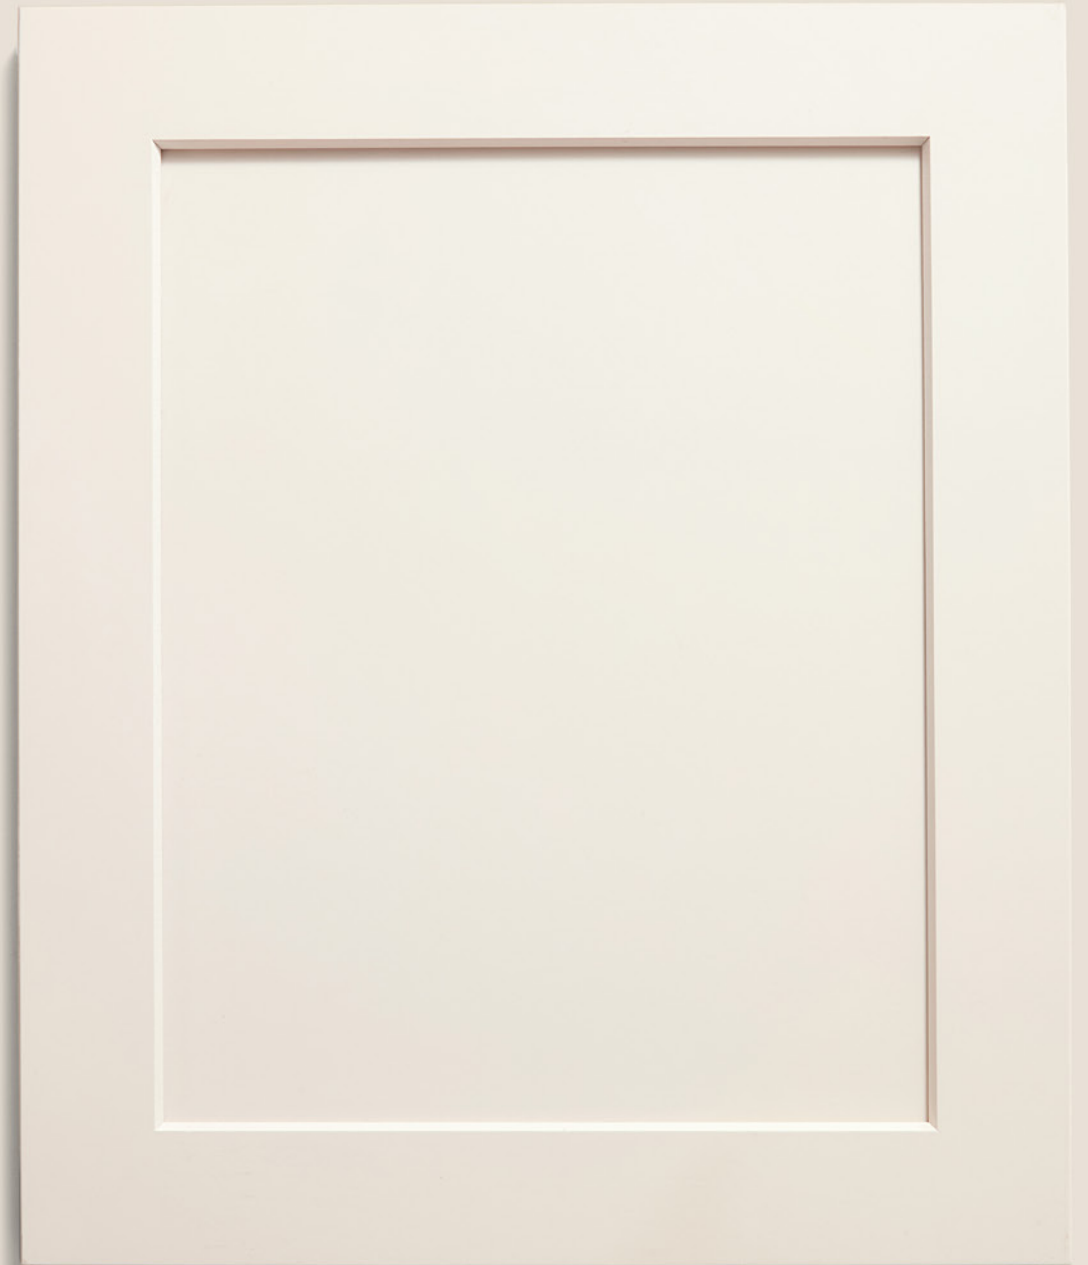

Our inaugural collection of soft greens, creamy neutrals, a calm blue, and a rich brown evokes the serenity of nature and the textures of the world around us. Of the moment, but also enduringly timeless, this Color Currents capsule brings warmth and dimension to any space.

Dewdrop

A fresh green with soft gray undertones.
Reflecting the calmness, tranquility, and optimism
of a crisp new day.

DESIGNER LOOKS

Light and Luxurious

Using color to bring the outdoors in, a trio of hues and textures elevates a kitchen filled with natural light. Cashmere cabinetry frames the space, while a Sagewood island creates an inviting focal point. Paired with the warmth of Marsh's Cocoa stained finish, the space is as comforting as it is bright.
