

A BEAUTIFUL RELATIONSHIP

Our history. Your story.

Your style. Our cabinets. Our handcrafted precision. The trends you seek.
Our independence. Your freedom to choose exactly what works for you.

Marsh Furniture Company has been building beautiful cabinetry for more than a century—still using handcarts from the early 1930's. For us, the handcart wheel symbolizes moving forward, while carrying on the practices and relationships that built our business: Our long commitment to supporting our dealer partners and the families they serve. Our strong heritage as a family enterprise, standing behind the craftsmanship of every product we make. It all comes together when you work with Marsh. A relationship that fills the heart of your home with beauty—to last a lifetime.

Photographs throughout this brochure are often submitted by our dealer partners. Many dealers use custom woodworking services, not affiliated with Marsh Furniture Company, to design and build products to complement Marsh Cabinets.

Framing details on the cabinet doors, topped with our elegant cove crown molding, create a cozy, inviting Transitional kitchen. Warm textures and neutral colors against this backdrop of fresh white create a gathering space that glows.

CONTEMPORARY

A space that feels new and now. Clean. Understated. Or bold and glamorous. Where form meets function. And friends and family gather to talk about what's next.

Flat-front, full overlay doors with simple hardware create a confident, uncluttered look. Built-in appliances create an orderly feel, while the waterfall countertop and contrasting finish on the island add artistic flair. Sleek. Chic. Livable.

A mostly monochromatic scheme gives a polished look to an uncluttered, streamlined workspace. Dark, dramatic cabinets, with minimal structural details, act as counterpoint to a colorful backsplash and brilliant white countertop.

TRADITIONAL

Timeless and timely at the same time. Classic contours with a nod to authentic historical style. Or just your vision of what home really means. Be it humble, or grand.

Dark stained cabinets with raised panels and a space-saving sitting area make this kitchen feel open and inviting. Bright countertops and the painted island combine with more traditional details to keep it in the now.
