A colony that she was caring for (TNR) was eradicated by a person that had personal grievances for her. She thinks about 37 have been killed and she had a lot of time and money (about \$8,000) invested in helping these cats. She would like an ordinance that makes it illegal in town to harm a colony of cats that someone is caring for. She had numerous amounts of cat information she shared. The vote was unanimous that since cats are wild the town cannot write a resolution or make a change to protect anyone person.
