9. **Water Department:** Dallen got a call from Alan Gurney. He wants to look at the ordinance on the water. Also, they finished drilling at the new well, sent in samples and pumped 430 gpm in allotted time. Contractor is currently laying pipe from the well head through property to hwy 50 and will tie into line coming from springs. The forms are all set for the well house and the footings will be poured soon. Need to set some culinary restrictions. The irrigation water is very low and restrictions have been set on it. Will try to get a letter out to everyone that has a meter to let them know. Will have to cut back watering lawns. Only trees and gardens at this point are what we need to water.
10. **Town Dinner:** The town dinner will be on the 23<sup>rd</sup>. The 24<sup>th</sup> will be the parade (theme is Press forward and carry on) and will do the same route as last year. Games is park and rodeo will also be held that day.
11. **Fire Department:** Kevin was present and reported on county business. Talked about fireworks, each town will be able to decide if they are allowed in town. The county is

recommending a ban on fireworks. Pam is in favor of banning fireworks in town- the council voted in favor of this. Dallen made a motion, 2<sup>nd</sup> by Jim to ban all fireworks in town until further notice. Fillmore and Delta will do fireworks on the 3<sup>rd</sup> and are encouraging everyone to attend those.

12. **Parks and Cemetery:** Jim took old electrical boxes down at park. Said pavilion needs a bit of repair @ rodeo grounds. Need to get the slide fixed at playground before the 24<sup>th</sup>. There will be no watering the cemetery and they will try to keep parks looking half decent until 24<sup>th</sup>. Will be revisiting cemetery grazing that was talked about last time. Will probably put it up for bid. Tabled until next month so they can vote on it.
