HTGR Program

“Hit The Ground Running”

Hit the Ground Running is a program offered by Trinity Transitional Housing for Clients who are “employment ready” from the day they enter our program. The intention of the program is to allow enough time for an individual who is starting over in life and just needs a place to live while they secure gainful employment and become self-sufficient.

To Qualify- Applicant must be ready and willing to work full time on the first day of housing.

Award – If you are accepted TTH will pay your first months Program Fee and move in fee. If applicant secures employment by the 21st day TTH will pay your next month’s program fee

The Program-

Applicants who are accepted are expected to begin looking for work immediately. Once you secure employment they must provide the housing manager with the name of the employer, the start date, and contact information to verify. In order to qualify for the second month’s program fee, we must verify employment by the 21st day.

If employment is not secured by the 21st day, you are no longer eligible for HTGR and you become self-pay. It is up to you to figure out how your program fees will be paid. You can apply for other assistance, but you just need to make sure your payment is made according to the house rules.

Nobody will be removed from the house for not finding employment. But you can be removed for not paying the program fees as agreed to in the rules.

Employment must be from a licensed company that is responsive to our requests. We must be able to verify employment without delay or communication issues.
