

Working Smarter - Time Management

Managing priorities and staying focused in the age of digital distraction

Overview

All participants will leave the day with new skills, a better attitude and greater appreciation of how to manage their day, time and lives better.

- Managing priorities and structuring your day
- Dealing with distractions and being more focused
- Goal setting, decision making and overcoming procrastination

Who will benefit

All staff and managers: Everyone in an organisation who is responsible for getting things done, delivering business results, customer service delivery or managing others.

About the training

This highly practical and interactive training course brings time management to life. It does this through short and interactive presentations, practical exercises with lots of tips, tools and techniques.

Participants will be asked to complete a short pre-training questionnaire.

Key learning points

- The best ways to assess, manage and schedule workflow priorities, meet deadlines and get ‘everything’ done!
- Proven methods for managing expectations, resisting manipulation and staying in control.
- Three easy techniques for structuring your day, week and normal routine in the age of digital distraction
- Gain an hour of productive time by overcoming the causes of poor time management

- A seven-step process for setting goals and objectives in your work and personal life
- Using the science of focus to great breakthroughs in your results, self-discipline and communication with others – emails, meetings and conversations.
- Understand how attitude, habit and incremental improvement can work together to improve your time management and work-life balance.
