## Occupational Therapists 1.0 FTE x 2

**Are you an experienced Occupational Therapist who is looking to change lives? To be part of something that will benefit all our community not just our clients in their pursuit of meaningful occupation? Then roll up your sleeves because we have work to do!**

ABLE Therapeutic Services Pty Ltd, are located on the beautiful North West of Tasmania. We have a well established and respected Occupational Therapy practice for Adults (adolescents too) which started three years ago. While we have remained small; our demand has remained huge....so...we are in an exciting development phase, not just for Occupational Therapists but also in the services we offer our community.

We are looking for full time, part time, casual or subcontract Occupational Therapists to work across the whole North West and West Coast of Tasmania. We currently work with adolescents and adults, with a range of disability types, to achieve their goals. Home visiting our clients is a major part of our role, we love that we can drive along viewing country roads amongst rolling green paddocks, snow covered mountains in the distance and the beach at the same time! Visits to the wilderness areas of the West Coast, farming areas of Smithton and even to King Island! Many of these regions lack engaging and meaningful skill building individual and group programs, so we are keen to expand our services and take what we do to a next level! We want to help our clients connect with others in their community, in building their skills - not just Therapists and paid support staff.

As a first step, we have opened our SENSORY HUB: An informal place to gather (BYO Cafes). A place where people of all ages, disabilities or not, can gather and use the state of the art interactive projection technology and sensory rooms to learn to calm, cope and connect with others. Open to the community and our clients. Our Devonport Sensory Hub opened in March 2021 and has been well received by our community. The sensory Hub services children aswell. For more information visit [www.ablesensoryhub.com.au](http://www.ablesensoryhub.com.au);

**Why us?** We support people to live their best life. That includes you! You might be interested in:

- Access to great **professional development**
- Variety in your caseload and ability to direct to your interest areas.
- Working in a **multi-disciplinary team** within the community of OTs, Speech Pathologists, Behaviour Support Practitioners, Psychologists and Support Coordinators to deliver outcomes for clients. Our Sensory Hub also offers art therapy, music therapy and mindful movement for people with disabilities with a Yoga Therapist.
- **Flexible working conditions** with part-time and remote working arrangements supported and mobile working tools supplied.
- Allied health assistant support (5!)

- Use of technology such as electronic signing and dictation services for better time management.
- A focus on **work / life balance** with access to monthly Accrued Days Off, up to two weeks additional purchased annual leave each year, and access to long service leave after five years. Allowing you to enjoy this amazing state of Tasmania.
- None of the worries and workload of managing/running your own practice.
- **Competitive remuneration - we pay over award rates**
- **We are supportive - if you have ideas, we want to know and will support you to do it!**
- Our Sensory Hub is one of a kind...be part of something amazing and help us bring meaningful, calming connections for others in our community and new communities!

### Who are we looking for?
