

# City of Valdez Pavement Plan

Phase IIIB - VI Design | Project No. 22-310-1115

March 2025

## Project Description

Existing pavement conditions on roads within the City of Valdez have deteriorated. Due to the deteriorated pavement condition, the City is initiating this Pavement Rehabilitation project to improve roadways, extend the service life, and reduce future maintenance costs.

## Key Project Design Features

- ✓ Resurfacing
- ✓ Curb and Gutter Replacement
- ✓ Drainage Improvements
- ✓ Utility Replacement/Relocation
- ✓ Pedestrian Facilities

## Current Progress

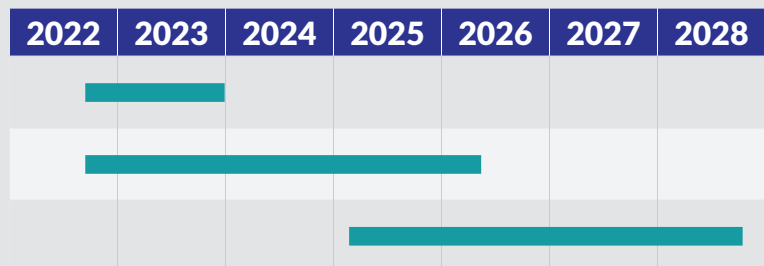

Construction on Pavement Management Phase IIIB: Pioneer Drive will begin May 1, 2025, and be substantially complete by October 31, 2025. Phase IV has been deferred to the 2026 construction season. The project team is continuing design work for Phases V and VI.
